Heater Unit CON 20 for STIEBEL ELTRON, Germany

Dirk Schumann, born in 1960 in Germany, studied product design at the Münster University of applied Sciences. After graduating in 1987, he worked for two design studios and until 1991, he was lecturer at the product design unit of Münster University of Applied Sciences.

In 1992, he founded his own design studio, Schumannndesign in Münster. Since then, he has been focusing on conceptual architecture, creating visionary home design ideas and holding lectures at international conferences. Dirk Schumann has taken part in exhibitions, both in Germany and abroad, showcasing works that have garnered several awards. Schumannndesign is working for different international companies in Europe and Asia.

Since 2006 he is member of the red dot product design award. In 2015 Schumannndesign founded Schumannndesign China and Schumann&Wang in Xiamen City.
